Distributors of the finest quality Silk
and Wool Talaisim and all Domestic
and Israeli religious articles.

MAIL ORDERS PROMPTLY FILLED

GOOD NEWS

We call special attention to the new modern designs made for us by the well-known Jewish artist SIGMUND FORST. Their distinctive beauty and tasteful style will be an attractive addition to any place of worship.

Each article is carefully made by expert craftsmen with a long tradition in the old-world art of embroidery. The pictures cannot properly reproduce the colorful beauty of our designs. Only the best materials are used and our creations are available in all popular colors.

On request we are pleased to make up any article to your own specifications. When writing, please state design number and measurements. Mail orders will be executed promptly to your fullest satisfaction.

Price quotations gladly supplied on request.

All designs registered with U.S. Patent Office.

ALL PRICES KEYSTONE

We are pleased to announce, due to the demand of our satisfied customers, the establishment of a complete Sefer Torah Department, and accessories.

We feature the most wide selection and range of prices and sizes, of the finest quality Sefer Torahs (Kashruth of course).

A very competent Staff of Scribes (Sofers), are at your disposal. We are able to provide you either with a New Torah, imported from Israel, or an European Torah. We also are able to recondition your Old Torah. You will find a Torah in our stock, prices, within your budget.

VERY IMPORTANT

A new approach to solve your Sefer Torah problems.

You can trade in your old defective Torahs, or if they are very heavy to handle, why not take advantage of this offer. You may be able to pick out a Sefer Torah to your specifications, instead having old Sefer Torahs unused for many years.

P.S. We will send out a representative on your request.

PULPIT COVER No. 121

M-\$180.00
H-\$300.00

INTRODUCTION...

This new line of synagogue vestments is the first attempt to put on a commercial basis and within the reach of most congregations articles of such standards of beauty and durability. Gone are the "rampaging lions" and all the massive and elaborate detail. In their stead are Jewish symbols in pleasing designs. Future historians will have some original designs to show for this contribution of our generation of American Jewry to the decoration of the Torah and the synagogue. We have built new and different styles of synagogues and should have these new types of vestments to conform with these styles.

There is meaning as well as beauty in these designs by Sigmund Forst. There is a relation between the passage on each article to the symbols and designs found on them. There is also a harmony between the Torah cover, pulpit cover and ark cover.

TYPES OF EMBROIDERIES

- 1) MACHINE WORK, made on Vienna style, French style or Singer machine embroidery, trimmed with jewels and bullion.
- 2) LUREX HAND EMBROIDERY uses a nontarnishable aluminum base thread which comes in silver or gold color. The embroidery is raised and will not tarnish.
- 3) BULLION HAND EMBROIDERY uses fine beadlike pieces of real silver and gold metal (lacquered to prevent tarnishing.) The embroidery is raised but is much finer and more detailed work than the lurex work. In either of these embroideries there is a choice of silver or gold color thread, or combination.

TYPES OF FABRICS AVAILABLE

- 1) Velvet in cotton or rayon in a wide choice of 24 different colors or shades. ASK FOR OUR COLOR SAMPLE CARD. Or you can send your own choice of color to match your synagogue installations.
- 2) Pure silk or nylon velvet. Choice of colors is limited.
- 3) Satins, brocades, damasks, etc. to special order.

All articles made to order according to size and color — satin lined and hand tailored. Inscriptions (of donor etc.) usually put on lining.

ARK COVERS

Vary with size, type of embroidery, fabric, and design the average size is (4½' x 6')

Can be had with or without a valance with center opening

Can also be designed for a double curtain opening in the center

Heavy duty brass traverse rods available for installing the ark cover and valance

Special sheer ark covers with designs worked out on them as well as other designs can be created

PULPIT COVERS

Can be made as a draped cover or as a formfitted one.

IMPORTANT

Size of opening of Ark or of a proper fitting Ark cover should be given when ordering or writing for price. Ark covers are usually made heavy so that they almost touch the floor. Some of the Ark covers can be adapted for inside of the Ark installation.

OTHER DESIGNS ALSO AVAILABLE AND ALSO MADE ACCORDING TO CUSTOMERS DESIGN AND SPECIFICATION.

All designs registered with the U.S. Patent Office
